1	What is your general impression of the Bachelor's degree program in Biotechnology?
	Excellent Good ✓ Average Fair
2	What is the impact of the study of Mathematics and Sciences in solving engineering problems?
	Strong ✓ Moderate Low
3	Are you able to analyse a problem and formulate the experimental requirements appropriate to get the results?
	Yes Better ✓ No
4	Given a new equipment or environment how Comfortable are you to utilize and develop with it?
	Extremely Good ✓ Comfortable Uncomfortable
5	Do you follow any non-technical constraints such as environmental, social, political, ethical, health and safety, and sustainability?
	Yes ✓ Better No
6	How comfortable are you in identifying and designing an appropriate solution for an Engineering problem?

(Academic Year 2016-17 TO 2020-21)

Evaluation of Outcomes by Indirect method – Graduate and Alumni Survey:

The outcomes are evaluated indirectly by taking regular Graduate and Alumni Surveys there by incorporating the academic lags which take us towards continuous improvement.

Documented process and assessment from Alumni

Feedback from the alumni of the Department is regularly collected and attainment of the programme outcomes (1-5) assessed based on the above information.

1. Assessment of outcomes by Alumni (Based on Alumni Survey)

Year/PO	1	2	3	4	5	6	7	8	9	10	11	12
2016-17	100	100	70	100	50	80	73	87	91	81	70	67

Feedback Analysis and Action Taken Report

Sr. No	Feedback obtained from	Analysis of the suggestions received	Action Taken
2020-21			
1.	Student	Require more challenging assignments and Tutorials.	The quality of the assignments and Tutorials is improved and two sets of assignments and Tutorials on each subject are given to the students.
2	Student	No Chemical companies come to offer placements to the students;	Core companies are being invited for placements.
3	Student	Provide virtual internships to students. Also, try to allocate internships to students in good industries from the college side.	Virtual internships are provided.
4	Teacher	Online Guest lecture may be arranged on "Fouling in Heat Exchangers"	An online Guest lecture was organized by the Chemical Engineering Dept for third-year students on "Fouling in Heat Exchangers"
5	Teacher	Online Guest lecture may be arranged on "Chemical Engineering and Project Management"	Guest lecture was organized for third year and final year students on "Chemical Engineering and Project Management"
6	Alumni	Latest technologies to be taught from the third year of their program	Inclusion of new technologies in form of elective courses (professional electives) emphasizing modern tools, techniques, and software is planned to be introduced from third year
7	Alumni	More courses with laboratory experience to be added which can give them more practical experience helping them to sustain in the industry	In the modified syllabus (2019 pattern) more focus is given on internship. Also, conducted a V-Lab practical's in online mode.

A. Evaluation of Programme Effectiveness

How much Extent the undergraduate program you undergone helped you to develop the skills & abilities?

Please specify ratings on the scale of 1 to 5 (1: Strongly Disagree and 5: Strongly agree)

S.No.	Parameters	Ratings (1-5)
1	The program helps to solve the Computer Engineering problems where analytical and logical thinking is required.	5
2	The depth of core subjects is adequate as a professional Computer Engineer	5
3	The program creates strong base for contributing in the industrial technical work involving designing skills, programming skills	5
4	The program includes activities to exhibit skills like Effective communication, presentation, reports and design documentation	5
5	The Program generates awareness and acquaintance with latest technologies and modern tools usage.	4
6	The program inculcates Project Management principles which helps to apply those in one's own work, as a member and leader in a team , to manage projects.	5
7	The program includes subjects for building base to deal with multidisciplinary projects	5
8	The program lays foundation for research or aspiring higher studies?	4
9	Extent to which the program helps to apply ethical principles and commit to professional ethics and responsibilities to be an entrepreneur for successful professional career	5
10	The Program helps to generate engineering solutions in societal and environmental contexts for sustainable development.	5
11	Overall rating of the curriculum and experience	5

B. Additional Information :

1. Do you feel your undergraduate education prepared you for your initial job and/ or higher studies?

The following questionnaire was shared with students. The students were asked to rate as given below.

Rate 1 to 5: 5 -Strongly agree,4- Very good, 3-Good,2- Average,1-Strongly disagree

- 1 The program helps to solve the Computer Engineering problems where analytical and logical thinking is required.
- 2 The depth of core subjects is adequate as a professional Computer Engineer.
- 3 The program creates strong base for contributing in the industrial technical work involving designing skills, programming skills.
- 4 The program includes activities to exhibit skills like Effective communication, presentation, reports and design documentation
- 5 The Program generates awareness and acquaintance with latest technologies and modern tools usage.
- 6 The program inculcates Project Management principles which helps to apply those in one's own work, as a member and leader in a team, to manage projects.
- 7 The program includes subjects for building base to deal with multidisciplinary projects.
- 8 The program lays foundation for research or aspiring higher studies?
- 9 Extent to which the program helps to apply ethical principles and commit to professional ethics and responsibilities to be an entrepreneur for successful professional career.
- 10 The Program helps to generate engineering solutions in societal and environmental contexts for sustainable development.

S.No.	Curriculum, Teaching, Learning and Evaluation:	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
1	Syllabus is suitable to the course.		✓			
2	Curriculum having current content		✓			
3	Aims and objectives of the syllabi are well defined and clear to teachers and students		✓			
4	Course content is followed by corresponding reference books		✓			
5	The books prescribed/listed as reference materials are relevant, updated and appropriate.		✓			
6	The syllabus has good balance between Theory and Lab		✓			
7	The course/program of studies carries sufficient number of optional papers.		✓			
8	The curriculum is adequate to fulfils Program Objectives		✓			
9	Programmes outcomes of the syllabi is well defined		✓			
10	Curriculum enhanced employability		✓

Year: SE/TE/BE

**Hint to fill the form: Please tick mark your choice.

Course outcomes		Strongly agree (N1)	Agree (N2)	No Opinion (N3)	Disagree (N4)	Strongly Disagree (N5)
1	Students will understand architecture and types of WSN. They will be able to understand various performance metrics in design of Sensor Network.		✓			
2	Students will be able to compare and analyze various MAC protocols used in wireless sensor network. Students will get introduced to the concepts of wireless links and its properties.	✓				
3	Learner would understand various wireless standards and protocols associated with Wireless sensor networks.					✓
4	Students will learn about several possibilities to tackle the challenges of localization of sensor nodes. Learner would understand the process of routing and routing metrics	✓				
5	Learner would understand the importance of network security requirements and security protocols in WSN	✓				
6	Students will aware with the unexpected problems and challenges in design and deployment of WSN,	✓				
Total number of outcomes applicable to this course = 6

1	Graphics subject is having less theory and lecture hours.
2	Syllabus is so lengthy.
3	Syllabus content is more according to no. of hours allotted.
4	For manufacturing processes, topics can be better learned via projects based on syllabus.
5	Industry Institute interaction should be emphasized.
6	Most of the contents of the ATD are same as that of ICE. So, change the subject name otherwise add Gas Power Cycles topic to ATD.

Programme Outcomes			
1. Program explained the need and application of mathematics & science in Production Engineering	✓		
2. Formulation of relevant problems, conduction and analysis of experiments by using modern mathematical methods	✓		
3. Design and development of manufacturing systems to meet the need of society within given constraints.	✓		
4. Ability to investigate, interpret and optimize the production system.	✓		
5. An ability to use modern manufacturing techniques and resources to solve the complexity in production system by understanding the limitations.	✓		
6. Applying professional engineering practices for social and contemporary issues	✓		
7. Ability to provide the engineering solutions by considering societal and environmental issues and use the knowledge for sustainable development	✓		
8. Understanding of their professional and ethical responsibilities to compete on national or global platform	✓		
9. Ability to work as an individual or as a team member to solve the core and multi-disciplinary engineering problems	✓		
10. Develop effective communication skills in verbal and written form.	✓		
11. Applying engineering and management principles as an individual or as a team leader to meet the industrial requirements	✓		
12. Recognizing the need and preparing for lifelong learning to bring about a technological change	✓		
Program objectives			
I. . Development of high level technical knowledge and life-long learning activities among students to excel in the professional field and also globally.	✓		
II. Development of appropriate skill required in manufacturing & industrial engineering to meet the needs of Indian & International companies	✓		
III Development of skill to formulate, analyse and solve a production system including automation.	✓		
IV Development of professional & ethical attitude, effective communication skill, team-work skill and ability to relate engineering issues to social context including environment	✓

Analysis form of Alumni Feedback

Academic Year: 2020-21

N	Average High Rating (N ₁)	Average Medium Rating (N ₂)	Average Low Rating (N ₃)
10	6.4	4.7	0.9

N – Number of feedback forms

N₁, N₂, N₃ – Number of times the student tick marked an option

Performance Index (PI) = $(5 \times N_1 + 4 \times N_2 + 3 \times N_3) / 12$

(If PI < 2.5 and below, identify the area which needs improvement)

Calculations:

$$\frac{5 \times 6.4 + 4 \times 4.7 + 3 \times 0.9}{12} = \frac{53.5}{12} = 4.46$$

Comments:

More industry exposure can be done, through physical visits to industry.

Consolidated action taken report on the feedback obtained from faculties and stakeholders related to curriculum

Sr. No.	Suggestion given	Feedback obtained from faculties or Stakeholders	Action taken
1	Fourth Year syllabus revision to be undertaken	Faculties	Provision for Open electives and interdisciplinary projects could be undertaken by the students.
2	To gain advanced knowledge through on-line courses.	Alumni	Students were motivated to complete online courses through NPTEL, Coursera.
3	Open elective to be offered for better exposure and a broader perspective.	Exit Students	Provision for Open electives is suggested to the board of studies of Production and Industrial Engineering and to be included in syllabus at Final Year 2019 course.

Course Exit Survey Analysis 2020-21

An online course exit survey was carried out for FE students. Total 562 students has given feedback. The following table provides subject wise feedback recorded.

Subject	Excellent %	Good %	Medium %	Average %	Poor %
Engg. Mathematics-I	45.16	40.08	10.45	2.69	1.61
Engg. Mathematics-II	50.90	35.66	9.44	2.60	1.40
Engg. Physics	38.86	40.29	13.50	4.48	2.87
Engg. Chemistry	48.95	38.29	10.19	1.46	1.11
Basic Electrical Engg.	44.38	39.34	10.99	3.61	1.67
Basic Electronics Engg.	44.18	40.05	11.02	2.48	2.27
Programming & Problem Solving	47.25	35.87	11.50	3.20	2.18
Engg. Mechanics	41.10	38.86	12.63	4.72	2.69
Systems in Mechanical Engg.	48.18	34.35	10.81	4.21	2.45
Engg. Graphics	46.03	34.89	9.89	5.47	3.73
Project Based Learning	60.22	29.70	6.00	2.64	1.43
Overall	46.84	37.04	10.58	3.41	2.13

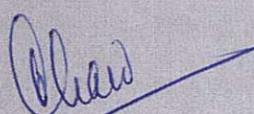

Observations:

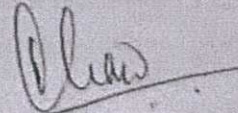

1. The overall course feedback of all FE courses is very good. 84% students has given overall either excellent or Good grade, which is higher by 6 % than last year.
2. Courses like Engineering Mathematics-I, Basic Electrical Engg., Systems in Mechanical Engineering and Project Based Learning has continued good performance.
3. The courses, Engineering Physics and Programming and Problem Solving shown improvement in their performance than last year due to efforts taken by teachers.
4. All other remaining courses have also improved their performance.

Action Taken:

1. All teachers were made aware about the feedback.
2. Teachers of courses Engineering Physics and Programming and Problem Solving have been instructed to contribute more in improving the overall feedback.

Sinhgad Technical Education Society Recruiters Feedback Form

Year 2020-21

(Date is on Next Page)

Dear Sir/ Madam,

We thank you for having considered students from Sinhgad Technical Education Society, Pune for placement in your company. Over the years, the engineering colleges under STES have attracted top students reaffirming the trust of the society towards our progressive efforts. In an endeavor to provide world class training, our college striving to upgrade its practices. In one of the steps to achieve this, we request you to answer the following feedback form. Your time and effort will make us even better and we assure you of the best.

Thanking you .

Summary & Action taken of the Feedback (Including Oral Feedback) received from the Companies who visited for Campus Interviews

ACADEMIC YEAR: 2020-21

Sr. No.	Company Name	Feedback on Students Placement Performance	Action Taken
1	Vodafone Idea Ltd	Serious issue of discipline and commitment from the students.	Students have been guided and motivated to become serious about their career.
2	Thermax Ltd	Students need to be well aware of domain knowledge and the applicability of domain knowledge to practical scenario.	Promoting the domain knowledge projects & Student activities at department level.
3	Cognizant	Need of the hour for students to be prepared towards being billable on day 1 of joining the industry, the left shift towards upskilling & alignment needs to begin right from 2 nd year itself.	Guest lectures and value added programs are arranged from Industry experts about project planning and skill enhancement.
4	Prismant Consulting	Need to focus more on internships and industrial trainings.	More no of internships are floated and industry collaborative projects & activities are arranged at various departments.
5	Xoriant Hackathon	Students were good but need to think more out of box. They were explaining more theory concepts rather than practical examples.	Encouraged students to participate in Hackathons and earn points & badges.
6	Infosys Hackwithinfy	Need to attend more Hackathons & Coding competitions	Encouraged students to participate in Hackathons
7	Veritas	Better to complete certification courses in the areas like of Cloud and RPS	Information was given to students during placement induction.
8	Honeywell Automation	Knowledge expected in advanced instrumentation used in industrial applications.	Planned to include training course in Student Training Program.

8	Birlasoft	Focus should be to improve on personality development	Introduced corporate etiquette workshops.
9	TCS	More complexity in projects required More extracurricular activities to be picked up	Encourage students to participate in various hackathons & contests.
10	Veritas	Need exposure to new trends and technology also need confidence while talking	Organized student connect session with the help of Cognizant
11	Zensoft	Students should be given more exposure in terms of practical training on new technology	Introduced value added programs on cutting edge technologies
12	Softlink	NLP kind of training will be good for young students	Planning to conduct VAP at department level.
13	Capgemini	Most of the students were a bit nervous while talking.	Conducted sessions for GD & PI
14	eInfochips	It is necessary to have a basic understanding of embedded systems, signal processing.	Conducted guest lectures & value added programs at department level.
15	Evosys	Students need to be more confident with what they are doing in their project work.	Company feedback has been conveyed to Project Guides for necessary action.
16	Mithi Software	Students need to work extremely hard on communication skills. Technical knowledge is fairly good, however can be improved further.	Included training course in value added program
17	RAAM Group	Students should refer to books rather than notes to enhance the knowledge.	Message has been percolated through Teacher Guardian regarding the use of reference books from department & central library.
18	Mahindra & Mahindra Ltd.	Students should focus on alternative fuel project and renewable clean energy projects and improve in research aptitude	Initiatives have been taken to take up projects in the area of fuel and renewable clean energy at department level.
