7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

7.1.3 Liquid Waste Management

The Institute has a Sewage Treatment Plant (STP) of installed capacity of 275 KLD, which caters mainly for domestic sewage treatment. The wastewater getting generated from laboratories (which is less foul and contaminated), is taken to a storage tank and after setting, reused in laboratories like fluid mechanics and also used for gardening and floor washing. (Such 02 STPs are available in the entire campus) which caters for wastewater getting generated from other institutes in the campus. The treated sewage from Sewage Treatment Plant is used for gardening purpose. The Institute has an annual maintenance contract with the outside agency who looks after the daily O&M of the Sewage Treatment Plant.
