2. Objectives of the Round

- To provide a transparent opportunity to eligible candidates for seats remaining vacant after CAP.
- To prepare and use a single, properly verified Inter-Se-Merit list for institution-level admissions.
- To ensure that vacancies are filled category-wise and then by Inter-Se-Merit in the sequence prescribed by Rule 13.
- To maintain immediate online updating of admissions and cancellations.

3. General Rules of Admission

1. Admissions under this process shall be made after the CAP Rounds and in a transparent manner, strictly according to the Inter-Se-Merit of candidates who have completed the prescribed verification process.
2. The admission schedule is as above and the Vacant seats (Seat Matrix) in each course will be made available at institute website and on notice board of institute.
3. An aspiring candidate must fulfill the eligibility criteria prescribed by the Government and Appropriate Authority for the concerned course. The institution shall not relax prescribed eligibility conditions.
4. Candidates applying directly to the institution shall be considered through the institution-level process. Rule 13 also provides a route through the Competent Authority website up to the date of allotment of the final CAP Round; such applications are forwarded to the institution after CAP Round-IV and must also be considered in the Inter-Se-Merit.
5. After verification of the required documents, the institution shall prepare and display the Inter-Se-Merit list for institution-level seats, Institutional Quota, relevant supernumerary quota seats and vacant seats after CAP, on the notice board and website.

8. All admissions and cancellations shall be updated immediately through the online system. The institution shall maintain complete records supporting the merit position, verification and admission decision.

CORE PRINCIPLE

No discretionary admission outside the published Inter-Se-Merit and applicable seat sequence should be made. The process must remain traceable from application -> verification -> merit -> vacancy -> admission -> online update.

4. Seat Treatment in the Round

- Institutional Quota seats are institution-level seats as declared by the Government / Appropriate Authority. Rule 7 also permits specified candidature types for these seats, subject to the prescribed conditions.
- The Round vacancy display should clearly distinguish Institutional Quota vacancies, CAP vacancies remaining after CAP.

5. Eligibility and Document Verification

For First Year Engineering / Technology (B.E./B.Tech.), the brochure specifies course eligibility requirements including qualifying examination requirements and applicable entrance-test requirements. 6.2 Merit Basis for Engineering Admissions

The official brochure defines course-specific merit construction. For First Year Engineering and Technology, HSC candidates are ranked on the applicable CET / examination score. Diploma candidates are ranked on the percentage of marks on the basis of which the Diploma is awarded. Tie-breaking is prescribed in the brochure and must be applied exactly as notified.

Candidate stream	Merit / tie-break essentials
HSC candidate	Applicable CET / other prescribed examination score; ties resolved by higher Mathematics score, then Physics, then Chemistry, then prescribed Board-subject / HSC percentages.
Diploma candidate	Percentage of marks on the basis of which Diploma is awarded; ties resolved by higher SSC percentage, Mathematics, Science and English in that order.

MERIT CONTROL

Do not create an institution-specific preference that changes the statutory merit sequence. Where the official brochure provides a specific merit method or tie-break rule, that method shall be applied to the verified data.
